3D SYNQ

A unique Fitting Ring built into the Mask Skirt providing an ideal fit for all face shapes.

Swift Buckle 3D

A new low-profile buckle and mask strap for smooth effortless adjustments.

Freedom Technology (Freedom Dry)

Enhances comfort and fit by utilizing a revolutionary low friction skirt surface.

3D Mask Strap

TUSA's unique 3D design contours to the shape of your head.

Round Edge Skirt

Round edge skirt improves both seal and comfort of the mask.

UV 420 Lens Treatment

Protects against harmful high-energy visible (HEV) light.

CrystalView Optical Glass

Provides superior clarity, color and transmission of light.

Anti-Reflective (A/R) Lens Treatment

Anti-reflective coating enhances overall vision.

Anti-Fog Film

Durable, long lasting material to greatly improve visibility by preventing mask fogging.

Panoramic View

Mask providing an extra wide field of view.

Zensee Pro Features

- UV 420 Lens Treatment
- Anti-Reflective Lens
- CrystalView Optical Glass
- Freedom Film (Large/1-piece)

UV 420 Lens Treatment protects against harmful high-energy visible (HEV) light and its potential to damage the Retina. HEV light is not just present on sunny days, but overcast days as well. Therefore, it is extremely important to protect your eyes against UV and HEV light in all weather conditions when diving.

SWIFT BUCKLE 3D

TUSA has designed the perfect buckle and mask strap. The NEW low profile buckle is slim and light weight. The easy adjustment buckle and strap is silent and effortless when making adjustments.

NEW ECO-FRIENDLY MASK CASE

WIDE VISIBILITY & LOW VOLUME

The TUSA M1010 mask provides a wider field of view than other masks due to its large lens and low volume design.

One-Window Frameless Mask with Increased Visibility.
